

Jaseel O.P

iOS Developer

hi@jaseel.dev — +91 8893735008 — Calicut, Kerala

SUMMARY

Dynamic iOS Developer with over 5 years of experience in designing, developing, and maintaining high-performance applications using Swift and Objective-C. Proficient in integrating third-party libraries and managing app releases for both iOS and Android platforms. Passionate about advancing skills in SwiftUI and Flutter, with hands-on experience building cross-platform apps.

EDUCATION

National College of Arts & Science, Nadhapuram — Calicut University

Bachelor of Computer Applications (BCA)

2012–2015

EXPERIENCE

KomdeTech, Freelance iOS Developer (Contract)

05/2025 – 08/2025 — Remote

- Maintained and enhanced a **property rental application** built using **SwiftUI**, focusing on UI improvements, stability, and performance optimization.
- Performed major **UI updates and redesigns** for the **Futsal Booking app**, improving usability and modernizing visual components.
- Collaborated remotely with the product team to ensure consistent design standards and seamless feature updates across apps.

Purposecodes, iOS Developer

08/2024 – 03/2025

- Developed and maintained Objective-C project *Purposecolor*, implementing UI enhancements, bug fixes, and audio recording features.
- Provided maintenance and updates for Flutter app *Mental Health*, improving reliability and user satisfaction.
- Collaborated with cross-functional teams to optimize app functionality and enhance UX.

Lascade, iOS Developer

03/2023 – 07/2024

- Developed the *Heart Rate Monitor* app using PPG technology, integrating Adapty for in-app purchases and AdMob for monetization.
- Built and maintained a travel and hotel booking app supporting flight, car, and hotel comparisons.
- Contributed to the *Sunday* iOS app, integrating SunKit SDK and Mapbox with SwiftUI and Combine.
- Oversaw the complete iOS app lifecycle from planning to deployment, ensuring high performance and reliability.

Meridian IT Solutions, iOS Developer

04/2019 – 02/2023

- Developed healthcare applications with features like appointment scheduling, lab report retrieval, and telemedicine.
- Built restaurant apps focusing on both customer and management interfaces.
- Created logistics solutions following Material Design principles and clean architecture.
- Developed the *Velicham* e-learning app for Arabic institutions with course and assessment tools.

Codemac Institute, iOS Developer Intern

2018 – 2019

- Assisted in UI design and implementation for iOS apps.
- Gained hands-on experience with the iOS development lifecycle.

SKILLS

Languages: Swift, Objective-C, Dart

Frameworks: SwiftUI, UIKit, Combine, Flutter, Cocoa Touch

Tools: Xcode, Android Studio, Git, Firebase, Postman, Jira
Integrations: Adapty, AdMob, OneSignal, CloudKit, Google Analytics
Databases: Core Data, Realm
Networking: RESTful APIs, JSON, Alamofire
Architecture: MVVM, MVC
Other: AVFoundation, Core Location, MapKit, Google Maps SDK, Lottie, CI/CD, Agile/Scrum

PROJECTS

Invigorix (iOS, Swift, MVVM)

Developed hospital applications for Zulekha, Alexis, and LifeLine Hospitals, enabling appointment booking, lab report downloads, and bill payments.

Restronet (iOS, Swift, MVVM)

Built restaurant apps with order tracking, payments, rewards, and Google Maps integration for Paragon Group, HiLITE, and Salkara.

Heart Rate Monitor (iOS, Swift, PPG)

Implemented real-time heart-rate monitoring using PPG and integrated Adapty and AdMob for monetization.

Sunday App (iOS, SwiftUI, Combine)

Integrated SunKit SDK and Mapbox to deliver sun-related data with responsive UI built using SwiftUI and Combine.

Velicham App (iOS, Swift)

Developed an online learning platform with course management and assessments for Arabic institutions.

Travel Booking App (iOS, Swift)

Developed a travel app with Kayak API to compare and book flights, rentals, and hotels from multiple providers.

eCabship (iOS, Swift, MVVM)

Built logistics app for booking and tracking shipments with integrated payments and real-time updates.

Forte Rapida (iOS, Swift)

Created logistics and inventory management app with Core Location-based tracking and reporting features.

Zayed Green Challenge (iOS, Swift)

Developed a multilingual educational game promoting environmental awareness with engaging quizzes.

City Facilities Management (iOS, Swift)

Developed service-management app connecting users with technicians, including booking and secure payments.

Rent a Car App (iOS, Swift)

Maintained a feature-rich car rental and flight booking app with improved UX and new feature rollouts.
